

Summary of Soil Sampling Results  
Schools in the Vasquez Boulevard/ I-70 Site Study Area

SCHOOL NAME	ADDRESS	NEIGHBORHOOD	ARSENIC LEVEL (PPM) <sup>1</sup>	LEAD LEVEL (PPM) <sup>1</sup>
New school	40 <sup>th</sup> Avenue and Steele Street	Clayton	11	94
Family Star Montessori	1331 East 33 <sup>rd</sup> Ave.	Cole	11	235
Mitchell Elementary	1350 East 33 <sup>rd</sup> Ave.	Cole	11	132
Harrington Elementary	2401 East 37 <sup>th</sup> Ave.	Cole	11	62
Cole Middle School	3240 Humboldt St.	Cole	11	112
Annunciation School	3536 Lafayette St.	Cole	11	172
Swansea Elementary	4650 Columbine St.	Swansea	11	115
Northeast Montessori	3503 Marion St.	Cole	12	200
Clayton Foundation <sup>2</sup>	3605 Martin Luther King Blvd.	Clayton	11	65
			11	83
			11	68
			11	62
Wyatt-Edison School	3620 Franklin St.	Cole	11	103

1. PPM stands for parts per million. EPA determined that cleanup of soil in yards is required where arsenic levels are greater than 70 ppm or lead levels are greater than 400 ppm.

2. Soil samples were collected from multiple locations: Hallet Hall playground, Barth Hall playground, Garfield Montessori playground, Martin Luther King Jr. playground
